

FACULDADES INTEGRADAS DE CIÊNCIAS HUMANAS SAÚDE E EDUCAÇÃO DE GUARULHOS

PROFESSOR DAS FACULDADES GUARULHOS GANHA PRÊMIO INTERNACIONAL Prêmio: Cecile and Ken Youner International Kidney Cancer Coalition (IKCC)

O professor foi premiado pela **International Kidney Cancer Coalition (IKCC)**.
Uma associação Americana formada por Cientistas na área de Onco Urologia.
Anualmente, o comitê da IKCC analisa os melhores resultados envolvendo Avanços no Câncer Renal e Premia o Cientista de Maior Destaque em resultados de Carcinoma Renal a Nível Mundial.
Este ano o Cientista premiado foi o Prof Adriano Oliveira, MSc, Professor do Curso de Graduação em Enfermagem e Fisioterapia, e da Pós Graduação em Psicopedagogia das Faculdades Guarulhos.

Prof Adriano Oliveira, MSc

PhD Student and Biomedical Scientist

Tumor Biology and Biomarkers Group

A.C.Camargo Cancer Center Hospital International Research Center

Segue abaixo a notificação oficial do Prêmio pelo:

Michael A. S. Jewett, MD, FRCS, FACS

Board Member, International Kidney Cancer Coalition (IKCC)

Dr. Beserra, the IKCC is delighted to notify you that you have been awarded the 2020 IKCC Cecile and Ken Youner International Kidney Cancer Coalition (IKCC) Scholarship. Congratulations to you and the entire team. Please accept our apologies for the late notification of your award but we have been uncertain about our ability to hold our planned annual meeting in Singapore April 16-18th in view of COVID-19. The IKCC Board met today and decided to postpone our meeting to the fall and to move it to Europe, possibly Amsterdam or the UK. Your award provides funds for you to attend where you will receive the Scholarship certificate and be invited to present your work, "Developing a patient-derived xenograft project in RCC". I'm copying this email to Rose Woodward who chairs our Conference Committee and will be revising the program in view of our decision to postpone. I would suggest that you think about how you would present your work in terms of framing your personal work with the field of animal and tissue research remembering that the audience is lay and may be sensitive to some pictures featuring experimental animals and cancers.

Michael A. S. Jewett, MD, FRCS, FACS

Board Member, International Kidney Cancer Coalition (IKCC)

Chair, Medical Advisory Board, IKCC

Co-Chair, Renal Task Force, US National Cancer Institute

And Inaugural Farquharson Clinical Research Chair in Oncology
